DIARY NOTES

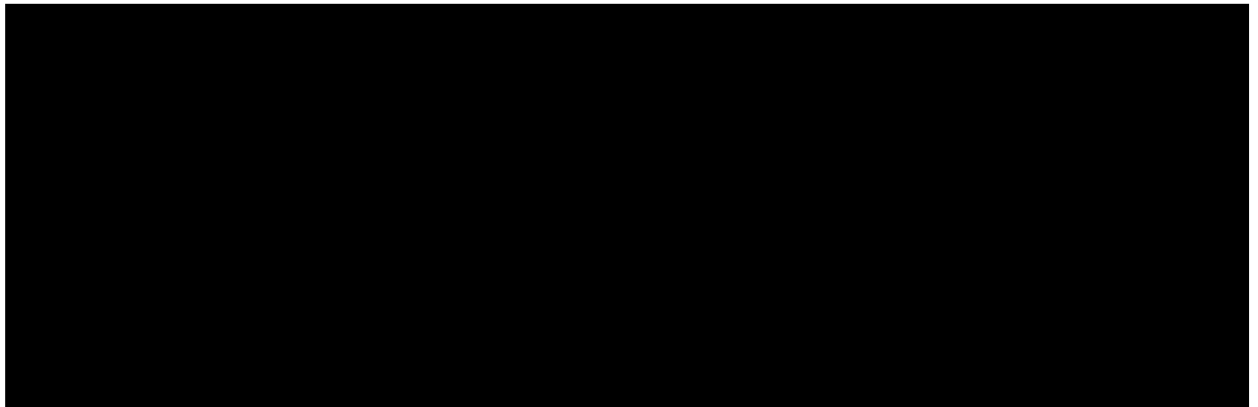

DD/S

14 July 1971

*Handwritten initials: JAW and PW*

1. Inquiry from The Washington Post: Mr. Goodwin reflected a telephone call he had received from The Washington Post seeking information on the disposal of sewage from our headquarters. Mr. Goodwin referred the Post to GSA as being responsible for our housekeeping. I confirmed for Mr. Goodwin that he was correct in referring the call to GSA, that sewage is actually moved for processing through a Fairfax County Pumping Station to the Blue Plains facility on the Maryland side of the river.

25X1A

*Handwritten note:* agreed 15 July to meeting in office. Houston will go there.
